PROFESSIONAL EXPERIENCE

Care Health Insurance Ltd – India’s second-largest health insurer with \$1B+ in annual revenue India

Product Manager – AI Strategy April 2023 – August 2025

- Portfolio & Team Management:** Identified and launched a 6-product AI portfolio across 7 business functions from an open mandate to find where AI could drive value, managing 3 PMs to scope domains in parallel and aligning 17 cross-functional teams.
- 0-to-1 AI Product:** Built and scaled the AI claims platform that processes all 1.9M+ claims filed a year (+12% YoY), by owning roadmap, model selection, and human-in-the-loop rollout, cutting processing 20% and saving \$1.1M+ a year while enabling detection of fraud and overpricing, and speeding customer access to treatment (**Best Innovation Award, AWS AI Impact 2026**).
- KYC Automation:** Saved \$400K by pitching an in-house build after 11 interviews, then leading a team of 4 to replace a third-party SaaS with a product that classifies, masks, and extracts data from KYC documents at 96% accuracy, validating against government registry.
- AI Evals:** Cut production issues 17% by recognizing that manual testing couldn't validate non-deterministic AI output and building the company's first AI eval function, shifting a 5-person QA team to a hybrid manual-plus-eval model for all AI products.
- Context & Prompt Engineering:** Cut user QC time 35% and enabled 14% of claims straight-through by raising extraction accuracy to 76% per document (94% per field), designing a multi-stage extraction, JSON-stitching, and prompt pipeline before tooling existed.
- Executive Presentations:** Secured 7 hires, \$600K+, and expansion into new domains by presenting monthly and quarterly strategy reviews to the C-suite, and governing responsible AI adoption in a regulated environment.

Associate Product Manager – Claims June 2021 – March 2023

- Mobile App & GTM:** Grew daily adoption by 125% (400 to 900+ cases) by diagnosing UX and reliability gaps in the mobile claims journey across 40 interviews and 200+ tickets, then leading the redesign and GTM with UX design, marketing, and engineering.
- Payments:** Built the payment engine that became the company's standard for all payouts (customers, agents, brokers), cutting latency from 2 days to 5 seconds across \$15M+, by identifying bottlenecks with finance and leading 3 engineers and 2 BAs.
- Ecosystem Scaling:** Lifted digital engagement 18% and cut claims processing time 75% by owning integration of the company's 96+ APIs into partner and hospital networks.

PROJECTS

Kangen – Climate Venture, Reverse Last-Mile Aggregation January 2026 – Present

- Techno-Economic Modeling:** Co-founded a venture tackling the unit economics of rural recycling logistics and built a techno-economic model showing why routes fail below density thresholds and how event-driven demand aggregation viability.
- Customer Discovery & GTM:** Validated demand across 20 businesses and 5 industry players (and a municipality interviewed for a pilot), then designed an asset-light B2B aggregation model and a go-to-market plan around municipal constraints.

GNOMI – Gen Z Growth Strategy (Hackathon) • Selected as 1 of 20 from hundreds of applicants to participate June 2026

- Growth Strategy:** Designed a Gen Z growth strategy for GNOMI (an AI global-news agent) on two zero-spend loops, a forwardable sourced-answer card and a public @-mention bot, tied to one north-star metric.
- Technical Feasibility:** Specified the architecture to make it economical: a 10-day vector answer-cache that serves one verified answer to thousands, with citation checks and a multi-platform bot integration.

LinkedIn Content Generation Application April 2026

- Agentic Architecture & Tooling:** Built an agentic LinkedIn content generator that tailors posts to a user's history using Gemini and grounds them in real-time trending topics (LLM tool use via Tavily) and shipped it end-to-end on Claude Code.
- Multimodal Pipeline:** Designed a style-extraction engine assembling generated text and diffusion-model images into PPTX layouts.

EDUCATION

DARTMOUTH COLLEGE United States

Master of Engineering Management, Awarded Thayer Scholarship Graduating: November 2026

Leadership: President of Dartmouth PM Club and Graduate Representative on Student Council

MOTILAL NEHRU NATIONAL INSTITUTE OF TECHNOLOGY (MNNIT) ALLAHABAD India

B.Tech, Electronics and Communications Engineering, Awarded Full Scholarship by Government of India Graduated: May 2021

Leadership: Co-President at Media House MNNIT, Mentor at Student Mentorship Program

SKILLS AND CERTIFICATION

Product Management: PRD, Product Roadmaps, Go-to-Market, Platform Strategy, Customer Journey Mapping, Backlog Prioritization, A/B Testing, Success Metrics (OKRs, NPS, Engagement), Figma, Lovable

Technical: AWS (Bedrock, ECS, Lambda, Textract, Sagemaker, SQS, SNS), PostgreSQL, API Integration, Generative AI, LLM Evaluation, RAG, OCR, Python, Docker, Google Antigravity, Claude Code, OpenAI Codex

Certifications: [Google GenAI Specialization](#), [Microsoft AI Product Manager](#)
